

## DanzArts' Summer 2023 10 Week Fee Table 6/5-8/13

This fee table shows tuition by time per week for the full **10** weeks of summer. We will not have classes on **July 4<sup>th</sup>**. If you are signing up for a Tuesday class or a class with a later start date, we will automatically prorate for that date. Are you going on vacation this summer and can't do all 10 weeks of classes? Of course, we can prorate tuition for you. **Only you must let us know at registration time when you will be gone.** We cannot go back and prorate or credit accounts if you decide later. Remember, you are always allowed to do a makeup for any classes you miss. Below is the summer 10-week fee table. If you need to prorate simply divide by 10 and multiple by the number of weeks you will be in class. When in doubt let our office help with math!
